

I came from Vietnam in 1975. I am graduate of Brigham Young University and been a CPA for over 20 years. Since graduation, I have worked for numerous CPA firms in the Sacramento area until I decided to open my own practice over twenty years ago.

In addition to my CPA practice, I am the controller for Dawson Oil Company, a petroleum distributor, and the Contract Controller for Developmental Disabilities Service Organization, a non-profit organization.

My interest away from work is spending time with my son and playing golf.
